CLUB
FOUNDED 1892

Climate Action Campaign: *Addressing Global Warming in the Silicon Valley Region*

Action now is imperative. The Loma Prieta Chapter of the Sierra Club, which includes Santa Clara, San Mateo, and San Benito Counties, has made climate change its number one priority. We launched four local-level initiatives to reduce the build-up of global warming gases and to thus reduce the risk of major climate change and protect precious living systems.

Yes! I want to support the work of the Global Warming Campaign of the Loma Prieta Chapter of the Sierra Club to educate and take action on global warming and solutions in the Silicon Valley Region!

Here's what your contribution will accomplish:

\$5,000 — Trains one Climate Action Team to engage the general public on ways they can reduce energy consumption.

\$2,500 — Enables and supports one Cool Cities' City Team to work with their city to reduce greenhouse gas emissions.

\$1,000 — Provides 12 educational presentations about global warming to schools, community organizations and faith-based groups.

\$500 — Empowers 15 volunteers to promote positive actions in workplaces, social venues, and community institutions.

\$500 — 250 educational packets for outreach efforts.

\$250 — 85 Global Warming Campaign brochures.

SPONSORSHIP LEVELS
